

FPi 5700

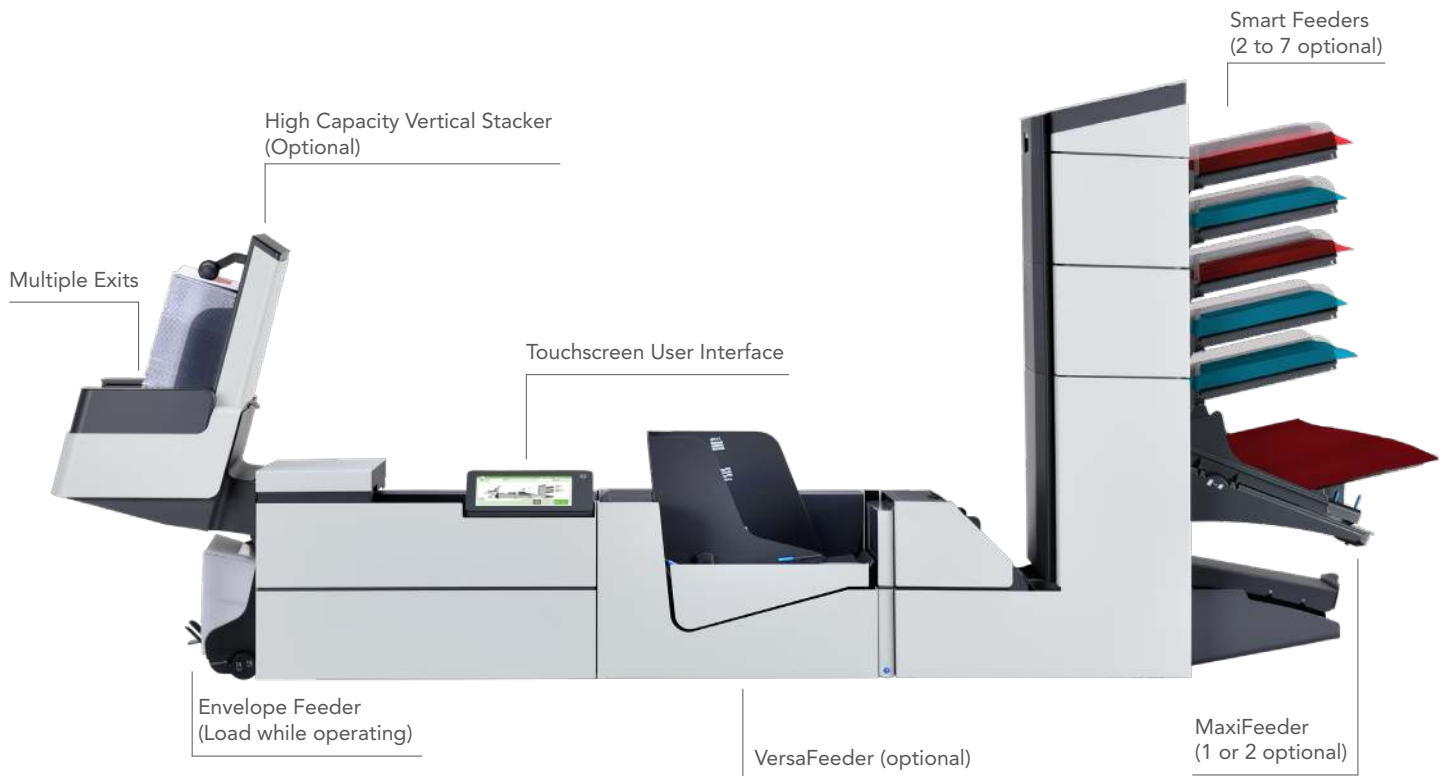

FPI 5700

Folder Inserter

Load. Press Start. Done.

The FPI 5700 turns any mail center into a strategic business asset by providing a platform for securely processing business-critical mailings. This fully customizable folder inserter offers an enhanced user experience, perfect for businesses that process simple and complex mailings. The robust security features and document reading technologies help companies overcome the challenges of protecting their sensitive documents. Smart Feeders offer tray notifications and linking capabilities while the double document feed detection measures the thickness and length of the media in each feeder to ensure the correct documents are inserted into the correct envelopes. The increased efficiency, reliability, and security features of the FPI 5700 make it a great addition for businesses with high-security needs such as healthcare, law firms, education, collectors, government offices, and more.

Intuitive Display

Easy-to-use 7" full color, glass touchscreen lets you intuitively control all machine functions. Automatic job setup allows you to program a job in 30 seconds, without the need for trial pieces.

Knife Fold Technology

This powerful, quiet, knife folding technology is capable of simultaneously folding up to 10 sheets of paper in half. There are 5 different fold types available: C, Z, V, Double-V and No-Fold.

Versatile and Efficient

Accumulates, collates and aligns before folding, and adapts to fit a changing workload. Customizable feeders allow the processing of documents that need folding, and inserts that do not.

Add-ons

Optional Document Processing Solutions

High Capacity Vertical Stacker or Side Exit Catch Tray

The High Capacity Vertical Stacker (shown on left page) stacks up to 500 finished envelopes. The Large Capacity side exit catch tray provides easy access to finished mail.

MaxiFeeder & VersaFeeder

The MaxiFeeder (shown on left page) holds 325 reply envelopes and up to 1,200 sheets of paper or inserts. The VersaFeeder holds up to 500 reply envelopes and can be loaded while in operation.

Scancode Reading Options:

One hardware device reads all code types including custom codes. 1D linear barcode (BCR), 2D barcodes (Data Matrix, QR, others), Optical Mark Recognition (OMR). No user settings are necessary when processing jobs with different code types or code print locations.

PostBase® pro DS Interface

Further automate your mailing process by interfacing a postage meter to a folder inserter. By interfacing an FPI folder inserter to the Postbase® pro or PostBase® pro DS, you can transform printed paper into folded, stuffed, sealed, weighed, metered, and stacked mail with little user intervention.

FlexStream Software

Document Enhancement Solution

FlexStream Software is a document automation solution that gives organizations control over their mailing process. With its unmatched versatility, FlexStream automates and simplifies business workflow. It ensures security and document integrity by adding scancodes that are read by the folder inserter. FlexStream allows the user to choose which documents to print and mail, and which to send electronically.

FlexStream key benefits:

- Add Scancodes for variable page processing, document integrity, and verification
- Automate processes, reduce labor time and saving money
- Organize, sort, group and enhance documents for printing
- Gain access to USPS® Automation postage rates and discounts
- Correct undeliverable addresses (reduce returned mail)
- Add variable and static marketing text, graphics, logos, QR codes or barcodes

Features

- Automatic job setup
- Smart Feeders with tray notifications
- Feeder swap, linking, and cascading
- Process multiple sized documents in a job
- Insert nesting or separate
- Process stapled sets
- Collate sheets before folding
- Can process glossy, pre-folded, and perforated media
- Multi-Sheet Feeding up to 25 inserts
- 5 Fold Types (C, Z, V, Double-V, No-Fold)
- Short Fold
- Divert before folding
- Bottom address processing
- Piece counter per job
- Electro-mechanical double feed detector at each tray
- Electro-mechanical thickness detector before inserting
- Envelope exit capacity up to 500
- Processes up to 4,000 envelopes per hour
- Load envelopes and media on-the-fly
- "Clamshell" design for easy access

Custom Consoles

Custom Consoles are the perfect companion for any FP Folder Inserter. Designed to be convenient and ergonomic and provide superior support for heavy folding and inserting systems. These consoles increase the reliability and lifespan of the equipment and includes internal storage.

Specifications

Technical Data

Dimensions (approx.) (W x L x H)	16.5" x 58.3" x 31.5"
Feeder Stations	up to 7
Processing speed (Maximum)	4,000 per hour
Folding capacity (20lb. paper)	10(single) or 8(C or Z)
Job memory capacity	50
Weight	175 to 223 lbs.
Noise emission in dB (REF: ISO 11202)	< 68dB

Documents and Inserts

MaxiFeeder capacity	1,200
VersaFeeder capacity	500 (load-on-the-fly)
High capacity document feeder	725
Standard document feeder capacity	325
Length x Width	3.5" - 14" x 5.1" - 9.9"
Max thickness (Booklets)	2.0 mm

Envelopes

Envelope hopper capacity	325 (load-on-the-fly)
Height x Width	3.5" - 6.38" x 6.3" - 9.7"
Exit capacity	up to 500

Options

- 1D Linear Barcode Reading (BCR)
- 2D Barcode Reading (Data matrix, QR, others)
- Optical Mark Reading (OMR)
- FlexStream Software
- Customizable Smart Feeders, MaxiFeeder, VersaFeeder
- High Capacity Vertical Exit Stacker
- Side Exit Right-Hand or Left-Hand Catch Tray
- Basic Catch Tray
- Postage Machine Interface
- Custom Consoles
